

SBC

PRO • PRIME

Another SBC innovation

To better serve our customers

Introducing Pro-Prime, SBC Extra R&R and Clear R&R shingles pre-primed. Pro-Prime shingles are coated on all sides with a light gray color and are shipped ready for installation. Furthermore, the unique formulation of Pro-Prime allows for easy application of a finish coat and offers a six month time frame for utilization of a top coat.

SBC PRO-PRIME ADVANTAGES

- ◆ Kiln dried for better wood stability and optimal stain adhesion
- ◆ Factory stained using our exclusive 'dipping' process putting more stain where it counts, on the exposed surface
- ◆ Coated on all sides for maximum protection.
- ◆ Top quality 100% acrylic latex coating from PPG /Olympic the leaders in machine applied coatings
- ◆ Possibility to use latex or oil based stains to top coat
- ◆ Unique formulation offering a 6 month time frame to top coat
- ◆ Wide-spectrum fungicide/mildewcide solution that protects against wood destroying fungi, mildew and blue stain

Did you know that if you have a specific color in mind we can factory stain your shingles with an exact color match; no need for field coating. As always, our factory stained shingles offer you our Peace of Mind warranty, 10 year/1-coat and 25 year/2-coat against flaking and peeling on solid stain.

Please visit our website for additional warranty information.
